Introduction - About Bujudia

What is Bujudia

Well I'll tell you. Bujudia is a belief which is built on other faiths. As bujudian you believes in rebirth, pardis in heaven and in God And Goddess. Bujudians contain very much learning from Wicca and Christianity there are the basic foundation of this faiths. As bujudian you are very happy about nature And spiritualism. you are also a witch. As bujudians it is good to learn about Wicca and the Bible in Christianity and all other religions as bujudia is a religion where you can find truth in other religions it will therefore also say that a bujudian can believe in something another bujudian would never believe in. But this religion is probably most akin to Wicca. And by the way this is a religion which is made / created by Jim HD it will say that what you find in this document is not very old. And haven't been edited written of other people the Jim HD. I've just put this on the internet to help them how has the same look on thinks like I have. for others how don't have it just look at "Wicca Book Of Shadows " which I made to you from other sources.

How it's all made

It all started with the big bang that formed the universe as it is today. But when the universe was created. So god and goddess a chance to create something good. so they created trees, barkterier, animals and humans. But the animals and humans had no knowledge. they could not think until they took a apple from the golden wood as they wassent mente to eat of because of the god who had existed long before the big bang. But when they had done it, they were punished for their actions of the god. But now could they thing self. This was both good and bad because now the people could of course be both evil and good and this was what the God had tried to keep them away from the evil of cause. So now he had to put them back on the ground where they will learn and later on the correct time come inside the heaven again. or will be reborn.

God, goddess and others

God

God of Christianity is the right god who has been handpicked for the Christian, but really is for us all. God is of man sex but he can understand the love and closeness with nature. He has taught our knowledge but without hazy that it would. Because with knowledge comes a great responsibility and opportunity for evil is opened. That's why we as bujudians, Christians Pagans, Wiccans. And more. shut understand that we should not be evil but good and help and learn as long as we can. what we say forever show we just keep on fighting evil. He is with goddess. god is not the god Horne. He does only good things. Except that as a man does something which is not good so God will give a penalty that depends on what the man have done.

Goddess

Goddess she stands for love, she reigns with God in heaven. She can be called goodness, like some of the wiccans do. and she is doing only good things.

Mother Earth

Mother Earth is our planet earth, or who gives life to animals, planters and people. This is our living place. This is where we are born this does not mean that we not could be born on Mars, but it means that we are here to help the world's population (animals and humans).

Virgin Mary

Virgin Mary Mother of Jesus. She was chosen of God to bear his Son Jesus and watch him to Jesus himself could do it. The reason that the goddess could not bear God's child was because she is not human, an then the child would not be born on earth. Therefore, God need to find one to give birth to his son. It was so virgin maria.

Jesus

Jesus the Son of God, half god. Earth's savior he was born for the salvation of mankind on earth and teach us about God his purpose was to teach and show us the power to exist one must simply believe in the power and then you can find it, but the force must not be used for evil deeds.

Satan

Satan was a man who begin killing and torturing people just because he think it was fun. He used the good magical powers to do evil purpose He created hell and brute all the evil forces together, he took some of the good and it hurt. There is, therefore, that people who are not good inside. never shunt learn about force and because they will probably use them for an evil purpose.

Good and evil, God and Satan

All living things can be good and evil

all people and all animals and all souls have both good and evil inside them. That is why all people and animals will have to understand what is good and what is bad, either by others or simply by following their hearts. The evil souls will only became when some one is bind to the evil power, or Makes a pact with Satan.

Spirits

A good spirit is a soul of a good human being or animal. When a good spirit deays it comes in heaven or well be reborn.

An evil spirit, is a soul from a evil human or animal. When a evil spirit/soul dies it disappears completely. or well be reborn as good.

Angels and demons

Angel are spirits who come to earth to help one or more individuals to understand the good, to help people in need.

Demon is an evil spirit.

Jesus in Bujudia

Jesus gave good advice and guidance which you can read about in the Bible. But Jesus also taught us in a way about the power of our god, earth and universe. Because Jesus himself was a witch even though he does not call himself that. He also showed us that one must sacrifice for the community so it will be good.

The dead can protect you

if the soul of people is allowed by God so that people can come and help you when you are in need. So come on as a spirit appears and tells or just give you a finger point or a voice in your head or other signs to help you out when you are down in your life.

Beginning At The Nature Happy Life

To understand nature and to have a good life you must live in harmony with nature. This means that nature is a kind of portal to the god and goddess where one can heal, make spells, or learn about life. A place that is everywhere to be looked after.

Different Settings

Death attitude

First you will be born then you go through a huge development and then you die and go to heaven or being reborn. If you arrive in heaven, then you can still be reborn later. So then there is nothing to wrong about with death. Death is a form of beautiful ending of life.

Life adjustment

Well someone gets sick or dies, you must keep a cool head it's okay to cry but remember that you may continue your life and get on and be happy for life. And learn from nature, God and everything else to understand yourself and understand life.

Christian and the pagan

You must understand that everyone is just themselves. They are the ones who decide who they are and will be. Whether you are Pagan, Bujudia, Wicca, Christian or something else then you must learn to live with the others and quietly, they will also learn to respect you as you are, if not then it's the wrong people you know and then you must find some new people to be with even though it may be difficult.

A planet a natural one world

You come here from like all of us this is our home this is where we live even if we could live somewhere else. But here comes my point of sight no matter where you live then you can love life, nature, animals, people and everything on our beautiful land is being corroded on extend of people who are indifferent to our land our nature, and it is everyone's duty to get the wheel up on it again so it can all become more beautiful. This is why we are here.

Why

Why, why that is one thing we all have asked for either a friend or his family or others, but the question is whether you can not find the answer in the wild or in themselves simply by thinking about but beyond the so you have to learn everything you can while you can to help as much as possible. Because we are here for each other we are here to make a good place to live in a place where you can see yourself in the mirror and think no matter what I do then everyone will love me this is what we must learn not only that we are ourselves but also many others we are a large shared closet. One must simply find the right people who can understand what you think and believe.
